The Standard AND RIVER PLATE NEWS.

No. 2180—Ninth Year. BUENOS AYRES, SUNDAY, MAY 23, 1869. Circulation 3000

MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

P. P. Maua & Co.
M. A. de FREITAS AMORIM.

January 1st, 1868.

LOUDET,
PHOTOGRAPHER,
344—CALLE PIEDAD—344.
Mons. LOUDET,

Begs to inform the Public of Buenos Ayres and the Argentine Republic, that he continues to take Photographs for the Carte de Visite, full length, and in every other style.

Mons. Loudet visited the Great Exhibition of Paris in 1867, in order to make himself thoroughly and practically acquainted with every improvement in the above important art; and, since his return from Europe, he has placed his Establishment on precisely the same footing as those of the first Photographers in Paris, London, and the principal cities of Europe. The Apparatus, has been selected from the most approved of those in the Paris Exhibition, several of the inventions having received Prize Medals, among which may be mentioned those of Dallmeyer, of Loudon, &c.

Voigtlander e Sohn. The saloons [in which may be included the Atelier] are handsomely furnished and commodious.

Mons. LOUDET feels the most perfect confidence in saying he can produce likenesses in every aspect, infinitely superior to those which have already met with such unbounded approbation from the distinguished Public of Buenos Ayres.

The Public are respectfully invited to inspect the Gallery. 98,f16

IMPERIAL FIRE INSURANCE COMPANY.

London.

Instituted in 1803.

Subscribed and invested capital, £1,600,000,
One Million Six Hundred Thousand Pounds.

The Company insures Houses or other Buildings, Goods or Merchandise, deposited in Private Stores, or Custom-house, Manufacturing and Training Stock, Ships in Port and the Cargoes of such Ships, and almost every description of Property against loss and damage by Fire.

Rates of Premium varying according to the nature of the Risks, and will be found as moderate as any other first-class Company.

The Company's large Capital, as well as the Board of Directors, composed of Members of the highest standing in the United Kingdom, offers the greatest possible solidity and confidence to the Assured.

The undersigned, Agents of this Company for the River Plate, and duly authorised by Power of Attorney to issue Policies and to settle in Buenos Ayres all losses that may occur from Fire and Lightning, with the usual liberality and promptitude for which this Company is so favorably known.

Any further information can be obtained on application to the Company's Agents,

MARCH 1ST, 1868.
SUBSCRIBED CAPITAL:
Hard Dollars, 2,803,772·59.
No. of Policies,.. 2,716 | Securities, $f.947,002·41

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

☞ Subscribers enrolled and all necessary information given at the Head Offices of the Company, 118, Calle Piedad, Buenos Ayres.

THE PASCAL'S MAILS.

The Liverpool steamer Pascal arrived in port yesterday; her mails and passengers were ashore in the afternoon. She brings an assorted cargo, and the following is her passenger list:—

Miss Mary Gath, Messrs D Stephen, S Andrew, E Price, H Aumings, J G Grieve, J Bell, F Mensell, Rev D G R Perez, Mr F Kresse, Mme F Kresse, Julia Evers, John Evers, C Evers, C Cormack, W Townsend, W Creed, H Allan, W Kenney, J Walsh, E Walsh, M Moran, B Casey, M Fox, J Cushing, M Giovanni, J F Da Silva, Manoel F Campos' Mr. P Keegan.

The following is a summary of the news brought by the Pascal. Her dates are London, 20th, Paris, 16th of April, and Rio, May 15.

ENGLAND.

The bill repealing Lord Aberdeen's Act had received the Royal assent.

The House of Commons voted all the supplies asked for the navy, but made some slight modification in the estimates of the Minister of War.

The discussion in Committee of the Irish Church Bill began on the 15th, and on the following night the House divided on Mr. Disraeli's amendment, the majority for the Government being 126.

Lord Russell had taken the first step towards a reform of the Upper House by introducing a measure by which her Majesty would be authorised to create 28 life peers at a rate of four per annum from different classes.

A noble Lord introduced in the Upper House a bill for the assistance of emigration from the United Kingdom, but it was withdrawn, as it was proved that no superabundance of population existed in the United Kingdom, altho' in many places there are more hands than work for them to do.

Mr. Lothrop Motley, who is announced by the *Times* correspondent to be the future American Minister to England, is an historian, and was formerly Minister to Vienna. A new policy with reference to the Alabama claims is spoken of. The new plan will be, so says the *Times* correspondent, a demand for payment of the claims, and also the acknowledgement by England that she was wrong in recognizing the belligerent rights of the Confederacy. No 'commission' or 'arbitration,' or 'consideration,' of any other claims are desired. The *New York Times*, however, is not so certain of a termination to the question. It does not think there is any prospect of an early settlement, nor are Americans, as a nation, anxious for it.

At the Central Criminal Court yesterday, James Thomas Gambier and William Rumble were charged with unlawfully conspiring together to obtain a large sum of money from Nicholas N. Maxwell, under the false pretence that they could procure for him the acceptance of a contract by the Lords of the Admiralty, with intent to defraud. The prisoner Gambier surrendered, the other prisoner was in custody. They were found guilty, and sentenced to eighteen months' imprisonment, with hard labor.

"The Railway King" of 1845, Mr. George Hudson, once M.P. for Sunderland, and more than once candidate for Whitby, is now living in absolute poverty in a foreign country. It is proposed to commence a public subscription with the view of purchasing a small annuity for Mr. Hudson.

The celebrated gridiron, the property of the original Beef Steak Club, at the sale of the effects of the club on Wednesday, was bought by Messrs, Spiers and Pond for £5.12s.

SPAIN.

The discussion of the Constitution continued in the Cortes.

Don Fernando's refusal of the Spanish Throne, and the reasons actuating him thereto have been explained to the Spanish Government by the Portuguese Cabinet, showing in how high estimation the Government of Spain is held by the neigboring nation.

The Finance Minister's budget estimates the expenses for the coming year 2,141,000,000 reals. The floating debt is not to exceed 600,000,000.

There are 22 vessels of war now on the Cuba station, and Admiral Topete admitted in the Chambers that more would be sent if the Government could find crews for them. He also said that the fleet was insufficient for the retention of the island in their hands, and that all efforts would be made to re-equip the navy.

FRANCE.

The different questions put to Ministers in the Chambers have brought forth most satisfactory replies respecting the maintenance of peace, but many English papers say that the domestic condition of France is calculated to make Europe very uneasy.

The extradition treaty between France and Belgium had been signed at Brussels.

PRUSSIA.

The Parliament of the North German Confederation has passed by a majority of 11, a bill authorising the appointment of a responsible Federal Minister who would sit in the house.—The Government party had made great though ineffectual efforts to have the bill thrown out.

AUSTRIA.

The Emperor was to open the Hungarian Diet on the 24th.

Count Taaffe was named President of the Council.

ITALY.

The King was to leave on the 18th for Naples.

The Finance Minister had effected an arrangement with the National and other banks.

A bill repealing the act conferring immunity from military service on clerical students had passed the Chamber of Deputies.

UNITED STATES.

New York, April 19.

Eight men of war, carrying 77 guns, had left to reinforce the West India squadron.

The Senate had approved of all the nominations made by the President; amongst them was a colored ambassador to the Court of Hayti.

BRAZIL.

The "Jornal do Comercio", of the 13th, says—

"The Imperial Government has sent the American Minister, General Webb, his passports at his own request.

"The cause of this is said to be General Webb's insisting on indemnification for the loss of the brig Canada, although the question had been referred to Washington.

The local papers say a new Minister will arrive in the next packet.

ORONO'S IMMIGRATION SCHEME.

Senator Oroño, one of the most active members of Congress, has presented to Congress a very comprehensive immigration scheme, which although it has not the slightest chance of being passed, is well worthy of special notice.

We see not the slightest chance of its being passed, for with the years of editorial experience we possess, we have discovered that the most popular, most threadbare, most neglected subject is immigration. All admit that the first, last, and chief want of this country is immigration. Editors, legislators, lecturers, lawyers, even brokers, confess the necessity of immigration—yet to this hour what has any Government, provincial or national, done for immigration? Nothing.

Buenos Ayres is the bleakest spot on the globe for the poor European who comes to make this country his home. There is none to look after him. From the very moment he leaves the ship's side until he starts for that unexplored bourne, the camp, he is victimised.

We have immigration, but if we have, it is rather in spite of the Government than otherwise, and active and influential as Señor Oroño is, we doubt very much if he will succeed in making the Argentine Government turn over a new leaf without long years of discussion, when at last it will be wrung from the Government by the sheer necessities of the times.

No man in the Argentine Republic has worked harder for immigration than Senator Oroño. When Governor of Santa Fé, his great hobby was agricultural colonies. True to his principles he now proposes a scheme, which if carried out, will do more for this country than anything else to rescue it from its present downward track.—We give our warmest support to the scheme, and thank the Senator for introducing it, but we firmly believe it will be eventually pitched under the table.

The following is a synopsis of the proposed law—

1. To issue two millions of National Bonds at 75, for the purpose of fomenting immigration.

2. With the proceeds to pay the passages for 1,500 immigrants from Europe or the States to the Argentine Republic.

3. To buy provisions for the immigrants and support them for 12 months after their arrival on the lands appropriated for them.

4. The immigrants to be purely agriculturists, each family to be composed of 4 persons, of which 2 must at least be able to work.

5. The Government to supply seeds, implements of husbandry, horses, &c., to each family.

6. The passage money of the immigrants from any port in the Republic to the places set apart for the colonies to be paid by Government, but not more than 40 patacons for adults, and 20 patacons for children to be paid.

7. The passage money to be paid to the captain, agent or firm for said immigrants after landing at the port designated.

8. The immigrants on arriving from Europe to be sent to the colonies offered by Provinces that agree to pay the passage money, &c. for the immigrants to the land in question, and the National Government not to be responsible for the fulfilment of engagements entered into by Provincial Governments.

9. The National Government makes no claims on the immigrants for their passage money, and offers to guarantee them in fee one lot of 20 squares square to each family.

10. The Government advances to each family—

2 tame oxen,
2 milch cows
2 horses,
2 American ploughs,
3 fanegas of wheat,
2 do maize,
2 do potatoes,

And food for one year at the rate of 4 reales per day per family, or $fts. 225 per annum for each family of five persons.

11th. Immigrants on arriving here from Europe are at liberty to go to whatever estancia or chacra they think proper, but in such case must repay the Government the passage money.

12. The immigrant shall have five years to repay the Government its advances, by instalments, but without interest.

13. All sums received from immigrants shall be applied towards the amortization of the debt.

14. On the formation of each colony the Government can sell the public lands adjoining by public auction, measuring the land previously and dividing it into chacras of 20 square squares, and suertes of estancia 6000 yards long, and only 3 suertes can be sold to the same bidder.

15. All sums received on the sale of such lands shall also be applied towards the amortization of the debt.

16. Native families who wish to join the colonies shall enjoy the same privileges as foreigners, and all shall be exempt from taxation for ten years.

IMPORTANT FROM PERIBEBUI.

A PEEP INTO THE PARAGUAYAN CAMP

We have received another batch of Lopez' papers, and have to thank a kind subscriber for his attention in lending us these interesting journals.

The 'Estrella' of 21st April 1869 gives the following:—Gregorio Benitez is promoted to the rank of Captain of the 9th regiment, and Martin Aguaga is named Commander of the district of Valanzuela. The first article gives a glowing description of Marshal Lopez in the presence of his enemies, and pictures the Marshal as the great hero of South America, who fights the battle of democracy against the throne. The allies are represented in a most deplorable condition. The subsequent article may be regarded as appeals by the editor to the young men in the Paraguayan camp to write for his newspaper.

The declarations of a Rio Grande spy are regarded as important, inasmuch as they give a deplorable picture of the allied camp. Hunger, disease and misery are represented as decimating the troops. The report from the army gives the following:—On the 19th Lieutenant Casco arrived at headquarters accompanied by a soldier; escaped from Asuncion, having belonged to the troops in Angostura, which were commanded by the infamous Thompson and Carril. One of these men was so badly wounded that he had to remain at Itaybaté, but from them was gleaned the following:—All the officers taken at Angostura have been distributed by the allies into the various regiments, and when the Brazilians left Asuncion for Luque the most of these officers escaped; those two cowards, Thompson and Carril, miserably deceived their soldiers in order to perpetrate the vilest treason and to surrender the fort which had been confided to them; they stated to the officers and the troops that one of the conditions of the surrender was, that they should not be obliged to fight against their country, and that they should be at liberty to go with their arms wherever they thought proper. As soon as the place surrendered they were immediately distributed amongst the allied regiments, with strict orders not to go more than fifty steps beyond the encampment.

Casco further stated that Major Gonzalez, who fell wounded in this battle, was taken prisoner and sent to Brazil. Major Victor Frete, another officer who was taken prisoner at Angostura, offered his services to the enemy, like a vile traitor. The Allies have been deceived by the lying stories of the traitors Paez and Roman, who induced the commander-in-chief to believe that an expedition to the north would be easy, and crowned with success. The Allies at once despatched troops towards the Villa of Rosario, but when the inhabitants heard of it, they all fled, and the effort to create treason in that quarter was defeated by the bullets which the captain of that town sent into the hearts of the enemy. The Brazilians cleared out, but soon returned reinforced, and fifty of their men marched on the little town again, and took the place. On the 12th inst., they again marched, but Sergeant Lobo, who was in the woods, was on their trail, and after a slight encounter, in which the Brazilians lost some guns and swords, and a pair of spurs, they abandoned the position. There is nothing further of importance from the army. From many of the distant country districts supplies have been received, and the troops are not in want of food.

Some escaped Paraguayans from Asuncion state that the force of the Allies in that town is so insignificant that it might be easily stormed, and it is a significant fact that with these advices Lopez has not thought proper to attack the place.

In the "Estrella" of 17th March, there is a long and bitter article on the fall of Angostura, charging Dr. Stewart with having treacherously sent a letter to Capt. Thompson and Carril, advising them to surrender, as Lopez's army was completely defeated. The "Estrella" states that Angostura was provided with everything, and that had Thompson and Carril done their duty, the whole allied army would have been defeated before the trenches had they dared to attack. The language of our colleague against Stewart, Thompson, and Carril, is unfit for republication, but he takes good care not to say one word against the Paraguayan hero, Lopez, who, during the battle of the 27th December, remained on horseback under the corridor of a rancho protected from the bullets, and who ignominiously cleared out for the mountains, leaving Angostura to her fate, when his soldiers were cut down and beaten back by overwhelming forces. Sergeant Delgado, a boy of fourteen years of age, was the first to communicate the fall of Angostura to Lopez. The paper goes on to state that the boy cried and sobbed as he narrated the conduct of Stewart, Thompson, and Carril.

There are various descriptions of the different battles, but too long for our columns.

We read that the day before the attack on the railway bridge, when the Paraguayans came down in waggons to attack the Brazilians, Mrs. Lynch and several others made an excursion in the railway cars, and actually came down to within view of the Paraguayan outposts. The next day the attack was made, which was crowned with success.

THE NORTH AMERICAN LEGATION IN PARAGUAY.

OFFICIAL RECEPTION OF GENERAL MACMAHON.

The following are translations of the addresses exchanged betwen General MacMahon and President Lopez on the occasion of the presentation by the former of his credentials as United States Minister Resident in Paraguay on the 14th December, 1868:—

Gen. MacMahon said—

"Your Excellency,

"I have the honor to place into Y.E.'s hand the letter of H.E. the President of the United States, accrediting me as representative of the U.S. Government near the Republic of Paraguay.

"I am pleased to think that there exists no question likely to disturb the amicable relations of the two Governments, and the duty I now perform in assuring Y.E. of the benevolence and sincere friendship of the Government and people of the U.S. towards the Government and people of Paraguay, is, therefore to me all the more agreeable.

"The United States, in faithfully maintaining its neutrality with the Nations with which they are at peace, does not wish to hide its anxiety and special interest in the welfare of the States of this Continent, and view with profound regret the prolonged war in which the States of the River Plate are engaged.

"I trust it will soon be my pleasing duty to congratulate Y.E. on the establishment of an honorable peace.

"It will be a cause of great satisfaction to my Government if its good offices which have been repeatedly offered to the belligerent nations may be efficacious in hastening this desirable result.

"In conclusion, allow me to express the personal satisfaction I feel on being presented to Y.E., whose name has been familiar to me in conjunction with the memorable struggle which the Republic of Paraguay has sustained with a magnanimity unexampled."

President Lopez replied,

"Mousieur le Ministre,

"It is highly pleasing to me to receive the autograph note by which H.E. the President of the U.S. accredits Y.E. as Minister Resident.

"I view Y.E.'s presence in this camp not only as a proof of the friendly relations of the two countries, but as a manifestation of the interest felt in the fate of my country by the American Union, whose Minister is the first among all friendly nations whom I have the pleasure of seeing in the midst of the clash of arms due to a protracted struggle.

"If, unfortunately, the length of this war has not been shortened, if the good offices proffered by the Great Republic of America have been fruitless, and my most earnest desire for an honorable and lasting peace sterile, the fault lies far from me.

"It is a matter of congratulation for me, Monsieur le Ministre, to see that one of the most distinguished figures of the great war in which the Republic of North America has lately been engaged should come here to be an eyewitness of all the self-denial and true heroism with which a nation fights for its existence.

"I feel very grateful, M. le Ministre, for expressing your sense of the unparalleled magnanimity which Y.E. recognises in the Paraguayan people, and for the honorable mention you have been pleased to make of my name."

EDITOR'S TABLE.

The Rio de la Plata arrived yesterday morning from Montevideo, and the Rio Uruguay from the Uruguay. In the sister city the press continues to discuss the financial situation, but with little if any apparent effect. A good deal done in paper the last few days it quoted prices, tendency downwards.

The news brought by the Pascal of European prices for wool and hides is still, we regret to say, unfavourable. Every mail now brings us additional cause for exertion to try and remedy the evils which an ill-judged dependence on a single product as our only source of income has brought on us. Bad as the present aspect of the European wool markets is, our exporters and estancieros will only deceive themselves still further if they look to a rise in prices next year. Everything points in a different direction, and every mail, as we before said, brings us additional reason for thinking so.

The Chamber of Deputies met on Friday at half-past one o'clock, and, after a short discussion on pensions and other matters of no public interest, adjourned at two o'clock p.m.

We had yesterday a visit from a farmer from Rojas, a gentleman who has been for some years engaged in wheat sowing and general agriculture in that neighbourhood, and as the views of a man of much experience may be most valuable to others, we give the results obtained by him in the past season. The gentleman in question laid down last year 50 squares of wheat, which when sold at the average prices prevailing, gave him a profit of from forty to fifty thousand dollars currency. It is but right to add, that he gives it as his decided opinion that wheat growing is an uncertain speculation at present, unless all the modern improvements in machinery are brought to bear on its cultivation. Mr. Bollasty, of the same neighborhood, who is extensively engaged in wheat growing, and has used the newest machinery in all his operations, assures us that nothing can surpass the perfect working of the reaping machines made by———of the States, which he purchased from Messrs. Coffin & Sons.

Mr. Bliss, whose name has been before the public for so long a time in connection with Paraguay, and the cruel policy of Lopez, is now filling an appointment as Chief Clerk in the State Department at Washington—not a bad recompense for his misfortunes.

We understand that during the late rains in this quarter of the province, in the direction of Nueve de Julio there was barely sufficient to lay the dust. Things are represented as perfectly quiet in that neighborhood, no trace of the Indians having been seen for some time. Accounts from the frontier, towards 25 de Mayo, are equally favorable.

The supplemental race meeting of the Jockey Club on the 25th inst. promises after all to be a most brilliant affair. Both the Hack Race and the Hurdle Race will be competed for by large fields, and the interest in the two matches announced is so great that we hear very large sums are being staked on both events. Mr. Crabtree has kindly made arrangements in the running of the trains, which no doubt will fully meet the necessities of the case. In addition to the ordinary trains on week days, there will be special trains every three-quarters of an hour, the last train leaving Belgrano at 7 p.m.

The state of affairs in Rioja is depicted as extremely bad; there is nothing doing in the way of trade, and everything is drooping except mining, which alone shows signs of vitality, and even of considerable progress. The peasantry are represented as starving in many parts of this province.

The majority against Mr. Disraeli's amendment on the Irish Church Bill was 123, so that all future opposition to its passing may be regarded as perfectly futile.

We observe with satisfaction that an Immigration Office has been established in Rosario: this will prove a great boon to numbers of men who go up there in search of employment, and we recommend all our countrymen who may have no friends in that neighborhood, if they go there seeking work, to apply at the Immigration Office for advice and information.

The report of the Commissioners of Immigration in the Uruguay Republic discloses a melancholy result of the insufficiency of lighthouses on the shores of the Plate: During last year no fewer than 44 vessels were wrecked at the mouth of the Plate, 12 of them being totally lost. The proportion of lives lost is small, being only put down at 9 persons; but it is a most curious fact that the largest number of wrecks occurred in or off the port of Montevideo, the Maldonado coast and English Bank being next on the list of fatal localities. Most of these disasters are attributed to the want of lighthouses.

We gave just learned that an English veterinary surgeon, recently arrived in the country, reports as follows on the cattle disease now prevalent in many departments of the B. Oriental: the ravages of the disease are much greater than is generally known; the country is in many places strewn with dead cattle. It is what they call in England 'red water,' a virulent epidemic, but very unlike the Rinderpest, not being contagious.

To-night, at the Hotel de la Paix, the Brazilians of Buenos Ayres entertain their distinguished countryman, General Osorio, at dinner. We hear that the banquet will be on a magnificent scale, and as we have been honored with an invitation, we promise our readers a full account of it in Tuesday's issue.

We should be unjust to the distinguished organ of public opinion, to which we are about to refer, and to ourselves, did we not take this early opportunity of acknowledging that there is amongst the Argentine press one organ to which our late remarks on the newspapers of Buenos Ayres do not apply. The "Republica" is an honorable exception to the apathy on all subjects of material importance displayed by the press of this city, for in its ably written columns is always to be found honest and straightforward advocacy of any measure tending to the material welfare of the nation.

The rumor of a diplomatic rupture between Brazil and the United States created considerable discussion in the city yesterday. General Webb, the American Minister at Rio, is said to have received his passports, but no satisfactory reason appears as yet to have been assigned for this sudden breaking off of friendly intercourse between the two nations. It is generally believed that the matter is not likely to have any more serious consequences than a temporary cessation of intercourse.

The portraits of all the prisoners in our city jails are about to be taken by a distinguished photographer, in order that they may be placed in the Kiosks and other public places, so that they can be easily recognised in case of the originals making their escape. This new plan of turning the general public into detectives is not either a new or a brilliant one. The only people who will take any interest in this latest edition of the Newgate Calendar are the thieves themselves, who will thoroughly enjoy, after an easily successful escape from prison, an inspection of their own portraits, the originals of which are erroneously supposed by a too confiding public to be safe in the hands of justice,—poor public!

The new Juez de Paz of the North Cathedral Parish is Don Manuel Mansilla, an appointment that should give satisfaction to the public.

The water will be laid on to-day at the fountain in the Plaza Victoria. It is a great addition to the beauty of the Plaza, and will form from its novelty an attractive feature in the May fetes.

In imitation of a practice partially established in the United States, women are now employed in the Post Office Department in Chili; supposing we were to give the lovely portion of humanity a chance in this way here, we might get our letters delivered in better time, and on a more regularly organized system. Sr. Posadas is a gallant man, and this interesting subject may not be unworthy of his attention. We understand that the Post Office clerks at present in possession are about to publish a manifesto, in which they will declare their willingness to receive with "open arms" the new employées. This free trade spirit in the Post Office clerks is very creditable both to their heads and hearts.

Our friend Mr. Klappenbach is making up a magnificent collection of minerals for the Cordoba Exhibition, amongst which are some splendid specimens of quartz. San Juan will be very creditably represented at the Exhibition in many ways, but in mining products is more than likely to bear off the palm from all competitors.

There will be a grand foot-ball match at Palermo on the 25th, which will, no doubt, be full of interest for the lovers of our English games. The return match will be played on the 27th.

Watson is making extensive preparations for his guests during the ensuing week. He has brought out a new bar from England at heavy expense, and there is not a beverage under the sun that cannot now be had at Watson's in the twinkling of an eye.

The May Feasts commence to-day, and the Plaza Victoria and Colon will present a gay appearance. The acrobats will begin in the afternoon, but there will be no balloon this year.

STEAMERS TO LEAVE.

To-day.

The Lujan, at 10 p.m., for Gualeguay, Rosario, Santa Fé, and ports.

The Espigador, with cargo only, for Rosario and San Nicolas. Freight, 6 pats. per ton.

The Cisne, at 10 p.m., for Humaita Asuncion, and ports.

The Saturno, at 10 p.m. for Salto and intermediate ports.

The Edward Everett, at 10 a.m., for Las Hermanas, San Nicolas and Rosario.

Monday.

The Villa del Salto, for Montevideo, at 5 p.m.

The Tala, at 10 p.m., for Zarate, Baradero, and San Pedro.

The Whiteinch, at 10 p.m., for Colonia.

The Solis, at 10 p.m., for Rosario, San Nicolas, and ports.

IMPORTANT FROM PARAGUAY.

RETURN OF GENERAL MACMAHON.

YESTERDAY the mails received from Paraguay brought the important news that the U.S. Commissioners who had crossed the Allied lines and gone to Lopez's camp had returned to the Brazilian camp, having remained 5 days at Lopez's headquarters.

General McMahon is expected hourly at Luque.

The Allied army is in a healthy and effective state. The Count D'Eu has acquired the greatest popularity in both the Argentine and Brazilian armies.

Horses are now arriving up hard and fast, and as soon as H.R.H. has a few regiments decently mounted, he strikes his tent and marches upon the enemy.

The exact resources of Lopez have been for some time known in the Allied camp, through the agency of some Brazilians who have escaped through the lines. Lopez may fall back and back until he gets to the falls of Guayra, but he has no troops to make any effective stand, and nothing but insignificant skirmishes can now occur.

It was rumored in Asuncion that all the house property in that city will be sequestrated by the Allies: this had caused an immense impression there, but we believe that the report is destitute of all foundation.

The River Paraguay is falling fast. Both the Parana and Paraguay are filled with shipping, and at every bend in the river steamers are met.

RELIGIOUS INTOLERANCE.

To the Editors of the "Standard."

Gentlemen:

It is probably from inadvertence that the enclosed slip from its Paraguay correspondent—reflecting upon the conduct of a Jewish merchant—and from the frequent repetition of the word 'Judio,' tending to hold up to public opprobium all who profess his time honored creed—has been allowed to appear in the columns of the "Tribuna."

The Messrs. Varela are too well known all over the world for their championship of liberal principles to allow me to suppose for one moment that they would knowingly be guilty of lighting the torch of persecution in this free Republic, but editors should be careful, however innocently, of being instrumental in pandering to the prejudices of the ignorant and malicious.

The "Tribuna" is not the only newspaper in Buenos Ayres that requires to be admonished in this respect.

The Jews, though scattered over the globe are a numerous race, and it is not to be supposed that they can be exempt from the ordinary failings of humanity, but according to statistics in Great Britain, the number of Jews convicted for crime is far less, in proportion to the population, than among other religious denominations. Be

this as it may, they try to do their duty to society, and take their fair share of its burdens as well as its honors, where they are allowed so to do. As an example, if you refer to the files of the "Times" of the last English mail, you will find that the debate on the Bankruptcy Bill was principally carried on by Messrs. G. Jessel, Sargeant Simon, and Sir F. A. Goldsmid, all three Jews, and learned in the law.

I could give many such examples, but for trespassing more upon your valuable time.

I remain, Gentlemen,
Your obedient servant,
AN ENGLISHMAN.

PASTORAL INTERESTS.

(Continued).

It is not necessary to go into figures to prove that sheepfarming as at present does not pay. It is already admitted. I will therefore show the probable profits upon a league of fenced camp.

Yearly Income.

	Pats
Purchase of one league of camp (5,760 acres)	10,000
Fencing same on outside, as per estimate, of four leagues, at 1,468 patacons	5,872
A lighter fence to divide the league in two parts, so that the stock may not be too many together, one league at 33 per cent. less cost	1,000
Same for an inside paddock for rams, &c., say one mile	333
15,000 sheep at 15 dols.	9,000
Buildings, corrales, &c.	1,500
Horses, carts, and bullocks	400
	28,105

Yearly Expenses.

	Pats.
Year's interest on outlay at 10 per cent	2,810
One man and his board to keep fence in order	240
One general peon and board	240
Taxes	150
Repairs	150
Sundry expenses	200
Shearing, baling, carting, and other expenses of 1,875 ar of wool at 20 dols. per ar.	1,500
	5,290

Capital Account.

	Pats.
1,875 ar wool at 63 dols.	4,725
Sale of 3,500 sheep, all fat, at 20 dols	2,800
	7,525
Off interest and expenses	5,290
Profit	2,235

No advantage is taken in the foregoing of the frequent rincons and natural boundaries, or of the system of fencing in connection with neighbors, nor have we reckoned on large camps, which can be fenced comparatively much cheaper, but have taken the most expensive way to show greater proof.

The figures show a profit of 10 per cent. interest upon outlay, and 8 per cent. yearly income on same, and we know from experience that the charges are too high, and income rated too low.

Those who have only had sheep on the shepherding system cannot know the enormous difference in quantity and quality of wool that would arise from fencing, nor unless they see and prove will they easily believe that all their sheep would be fat, and to be reckoned on for the saladero with certainty, instead of a portion only, as now.

We have reckoned on 15,000 sheep for 5,760 acres, the fattest ones to be sold off to make room for the increase year by year, but many camps would carry more than that when relieved of 'intrusos' and the sheep left alone. At present the sheep spoil 20 per cent. of the camp by incessant travelling; the wool is spoilt with dust and scab in the chiqueros; the lambs are lost because the mothers cannot stay with them, or will not, if born on the outside of the feeding ground late in the day, or in the chiquero at night or morning; the animals are kept late in the morning in the chiquero; and in the camp, being led by the stronger ones, they are always on the run, and cannot fatten—and the remedy for this is 'fencing.'

We have heard much of the injuries of the 'roceo,' but that we have seen to be imagination.

Once clean, the sheep would get no scab, and under this system we may carry out any amount of improvement in wool and animal, by having only one lambing per year, as is natural, and this would bring a greater increase, as no ewe would have a lamb until two years old, by culling our flocks of the inferior sheep year by year; by being enabled properly to separate ages and sexes, by means of the inside fences; by saving from contamination from neighbors; by security from straying and mixtures; by the certainty that any valuable sheep introduced would give us their full benefit without trouble or expense beyond their first cost, &c.—wool at $f.2½ ar. would soon be the exception (especially in the Banda Oriental), and a Bolivian dollar a low price for the fat sheep we should turn out.

If the Governments in the River Plate wish to save the industry of the country, they will mark the roads, and give protection to fences; and, surely, they will do so, the more especially as agriculture to which we are now turning, cannot succeed without it.

We have written principally of sheep, that being the 'weakness' of the country; but everything that can be said in reference to fencing for sheep applies even more strongly to cattle, as some already know.

If, in conclusion, we were to say that the cost of fencing—whatever it may be in the River Plate—is no consideration, compared to the benefits obtained, we should not be over-shooting the mark, and those who consider themselves entitled to put their capital account at the former price of sheep, and their original greater outlay, have quite room to do so, and will still show a profit by fencing.

J. S.

LOSS OF THE BLUE JACKET.

[News per Foam, which left Stanley on May 2nd.]

Saturday, April 3, 10 a.m.

Arrived—barque Antonio Vincent, J. McAuliffe Master, with coals, from Swansea to Valparaiso; 9 men and 14 bars of gold, value £15,000, from Blue Jacket, New Zealand clipper ship, Lyttelton, for London, burnt about 150 miles to eastward of Falklands, 9th March. The gold was delivered up to the Government. The men were in the boat from 9th to 29th March; 4 died in the boat, having gone mad from drinking salt water; 3 died on board the Antonio Vincent from exhaustion. The boat was for one day in company with a yacht, in charge of Captain White, and another lifeboat, under second mate, then parted company. They had no provisions or water, but a few biscuits and a cask of rum and water. They killed a dog, drank its blood, and ate the raw flesh. On sighting the barque the men were in a most pitiable state, and almost quite helpless. On arriving in Stanley they were placed under the skilful charge of Dr. McClinton, R.N., who has already relieved the party of about half a dozen toes, as well as sundry bones; they are now progressing favorably, and will probably be sent home, with the gold, per H.M.S. Megæra, expected daily from Rio with marines to relieve those at present stationed there under the command of Captain Elliott.

On the afternoon of April 29, the Governor and Mrs. Robinson were leaving his Excellency's yacht, in which they had taken a short trip in the harbor, when the boat by which they were going ashore capsized alongside the vessel. A scene of harrowing excitement ensued, and within an incredibly short space of time a dozen boats had flown from the shore to the assistance of the distinguished party, who were struggling in the water: but by the time the nearest boat, rowed by a man named Coulson, had got to the scene of the disaster, the Governor had already sunk twice. Fortunately, however, both H.E. and Mrs. Robinson were rescued and taken ashore, and we are happy to learn that neither of them, beyond the temporary inconvenience of a ducking, has incurred any serious injury.

We learn from a correspondent that the excitement reported in the "Colonial Church Chronicle," with regard to the discovery of coal and gold in the Falklands is quite imaginary, and can only be referred to as a futile investigation that took place some years back in search of coal, while the report about gold arises from the fact that a passenger in an Australian vessel, more than a year ago, stated his opinion that the distant rocks on shore might contain it. Nor is it manifest to the eyes of Falklanders that the Government are even taking steps towards the construction of a dry dock, far less putting it up; and we are on the whole unwillingly compelled to come to the conclusion that the Rev. Chaplain, in making a communication to our English contemporary on these subjects, has allowed his imagination to prey on his veracity to an extent that was hardly prudent in one of his cloth.

SEAMEN'S MISSION, B. AYRES.

QUARTERLY REPORT.

From January 1st to March 31st, 1869.

The labors of the past months, in some respects, have not proved quite so successful as during the preceding quarter; nevertheless, they give reason for thankfulness, as they prove the Mission's influence to be slowly spreading, and thus show the Mission itself is fully established.

Since the last report was given to the public, over 500 visits from seamen have been made to the Room; some for the purpose of reading, others to write letters home, and some for religious conversation. Thus from one cause and another the fact is clear, that sailors are glad to avail themselves of the advantages offered imperfect though they be.

During the past quarter I have sold or given away 9 Bibles, 13 Testaments, 17 religious books, 50 Gospels, and upwards of 15,000 pages of tracts, in eight different languages; and this distribution, to judge from past experience, I feel assured, will result in no little good.

Thus far, I have been unable to procure a "mission boat," yet I think if the number of good friends were increased, this much needed object might be obtained. I do trust the seamen's friends in Buenos Ayres may remember how much might be accomplished if we were able to visit the ships at anchor.

MATTHIAS MATTHIESON,
Seaman's Missionary.

CORDOBA EXHIBITION.

The Board of trade has published the following statement:—"The Lords of the Committee of Privy Council for Trade have received intelligence, through the Secretary of State for Foreign Affairs, from her Majesty's Minister at Buenos Ayres, that on the occasion of the opening of the railway from Rosario to Cordova, towards the end of 1869, the Argentine Government has determined to hold an exhibition of the arts and products of that republic at Cordova, for the purpose of developing its external and internal commerce. In this exhibition, the opening of which has been fixed for the 17th of April, 1870, will also be admitted machinery introduced from abroad, as well as agricultural implements that are applied or can be applied usefully in that country; and also, through the Secretary of State for Foreign Affairs, from her Majesty's Consul at Carthagena, intelligence that the port charges for that port have been definitely settled as follows: For every 1,000 kilos of cargo destined for the port of Carthagena, 10 reals, and 2½ reals for the works of the port; these duties include everything, so that a vessel taking in cargo pays no more either at Carthagena or any other port on the coast, and vessels entering in ballast pay no dues at all; and they have also received intelligence through the Secretary of State for Foreign affairs, from the Acting British Consul at Montevideo, that cholera has broken out at Buenos Ayres, and that in consequence the Board of Health at Montevideo has imposed a quarantine of six days on vessels arriving from that port."—*River Plate Mail.*

THE PAPER MILL.

To the Editors of the "Standard."

Gentlemen:

Supported by some friends, whose principal names I am now able to mention, viz.: Don José Gregorio Lezama, Messrs. Marciano Molina & Co., Don Emilio and Don Juan Antonio Agrelo, Don Eduardo Olivera, Don José Martinez de Hoz, and Don Manuel Dolz, besides some others whom it is unnecessary to bring forth to your notice, I have drawn the bye laws of a project of association for a joint stock company, whose purpose will be the manufacturing of all descriptions of paper, which I have the pleasure of forwarding, enclosed, to your good selves.

The notorious convenience of possessing in this country a paper mill, I am sure, will be highly appreciated by you, and as its most satisfactory result will greatly depend on both the native and foreign press of this city, I trust you will be so kind as to let me know if you would support said enterprise, not only as mere shareholders, but also as actual consumers of its product.

Although I am well supported by many capitalists to launch this, my idea, with the most fair prospects as to raising the required funds to carry on the enterprise, and to whose names I have added my own, subscribing for 50 shares, as you may be informed by perusing the bye laws.

I have considered it best to await the impression of our press in general, and to obtain the certainty that you may prefer the paper manufactured in this city to that imported, even in equal circumstances as to price and quality. If so I trust you will let me know the quantity of it used yearly by the "Standard."

Should this enterprise not be acceptable, I would most intimately thank you to draw out the defects, as it being a human work, I have no doubt it is not a perfect one, and in this case I will accept with pleasure your remarks on the subject.

Trusting to meet in the foreign press, with the support I claim, I remain, Gentlemen,

Very respectfully and truly,
Your obedient servant,
A. M. ALVAREZ DE ARENALES.
Sociedad Rural Argentina,
92 Calle Peru.

BELGRANO RACES.

On the 25th instant trains by the Northern Railway will leave the 25 de Mayo Station at 7 a.m., 9 a.m., 11.45 a.m., 12.30 p.m., 1.20 p.m., 2.20 p.m., 3 p.m., 4.50 p.m., 5.30 p.m., 6.20 p.m.; and Belgrano Station, at 8.20 a.m., 10 25 a.m., 11 35 a.m., 12 25 p.m., 1 10 p.m., 2 5 p.m., 2 50 p.m., 4 35 p.m., 5 20 p.m., 6 10 p.m., 7 p.m.

ON 'CHANGE.

	May 22, 1869.
Ounces,	490
Sovereigns,	122½
Patacones,	25
National Bonds	55½

The bond market continues to improve—prices opened and closed firm at 55½, cash—only 1,000 sold. In the liquidation prices ruled even firmer, there being only one or two sellers on long dates. For May 31st 277,000 sold—prices opened at 55½, went up to 55⅝; and closed at 55½. For June 30th 167,500—prices opening at 55½—they went up to 55⅝—then fell to 55⅝, and closed firm at 55 1/2. In the liquidation there were further sales at 55 1/2, and the price closed firm.

The Orono project for immigration was much talked of to-day, and the emission of bonds at 75 it is thought will rather improve the bond market than otherwise, particularly if the proceeds of the loan are religiously applied for the purposes set forth in the project—namely, immigration. The matter meets with great favour on the Bolsa, and every one hopes to see it passed, even though it increase the debt of the country.

It was said on 'Change to-day that the Provincial Government has received a more favourable offer from England for the negotiation of the Railway Loan than that already mentioned, and that consequently the loan will be negotiated in England. An amendment in the wording of the bill has been introduced in the Chambers, which will facilitate its negotiation.

The Pascal came up to-day, and her papers and mails were on shore at a late hour in the afternoon.

The Mendoza did not get away to-day, but she will leave to-morrow.

Letters have been received from Liverpool dated April 20, which announce the arrival of the City of Rio at Falmouth, having made a splendid run home in twenty-eight days. On her previous voyage she did it in 29 days.

Messrs. J. P. Boyd & Co. chartered the Don Diego to-day to load at the Liebig Meat Factory, Fray Bentos, at reserved rates.

It was rumored on 'Change this afternoon that, besides the gold to be shipped per Arno, the Pascal will also take specie to Liverpool.

The advices from the saladeros at Barracas are by no means favorable. Cattle are dear and thin, and most of the saladeristas who have worked largely complain that the business leaves nothing but a loss. The total killing at Sr. Cambaceres saladeros from November to date only figures up to 30,000 head, and this is the largest saladero establishment we have. In other seasons this saladero has generally from 60 to 70,000 killed at this date.

Money ruled very abundant to-day, and discounters complain that few good bills are offering. The demand this afternoon for the Plazas was very trifling, and discounts may be quoted at 8 per cent. per annum.

Exchange very dull; the rate the same, 49, but nothing doing. The brokers stated that to-day there was scarcely a bill passed.

The advices per Pascal are to the 20th April, and, commercially speaking, continue unfavorable.

Havre, April 17.

Hides—Market quiet. The reports of the last public sale at Baen are unsatisfactory, notwithing that sellers yielded a little; 242 dry hides from Montevideo had been sold at 110 francs per 50 kil. On next Wednesday there will be a public sale, but no River Plate hides will be offered.

The imports during this week have been as follows:—3,702 dry hides, 4,153 salted, and 44 bales of goat skins, all from the River Plate. A recent sale is announced of 2,011 ox-hides at 56.50 francs, and 500 dry at 102.50

Wools—Little doing, 250 bales of River Plate dirty, were sold at 1f.20 to 1f.60. Buenos Ayres washed at 4f.10.

Little business was done at the public sales, although Montevidean wools fell 5c., Buenos Ayres extra 5 to 10c. and B. Ayres merino 10c.

Of 2,702 bales put up on the 1st day 1,213 were sold; and of 2,461 put up the 2nd day, only 1,063 were sold at the fall established on the first day. On the 3rd day 2,480 bales were offered, and 1,323 sold at a shade better prices for Buenos Ayres sorts Of the entire 7,643 bales offered in the three days 3,605 were sold. The results of the 4th day are not yet known.

Tallow—Quiet, although better advices were received from Paris—100 ½ pipes and 100 casks of River Plate mutton tallow were sold at 52 francs per 50 kilos.

Imports—951 pipes and 250 casks from River Plate.

New York, April 19.

Hides—Imports since last report 68,214, 39,500 from Buenos Ayres and Montevideo, Sales, 44,735. Stock, 50,000.

Little done in dry hides, prices nominal, buyers holding back, notwithstanding the fall in price. The following are present rates—for 21 to 23lbs. 23 cents gold, for 25 to 27lbs. 22 to 23 cents gold, for Corrientes hides 21 to 23lbs. 23 cents gold. Great fluctuation in exchange market, and large shipments of gold expected from Europe.

London, April 19.

Tallow—32s 9d to 46s 3d for River Plate. Arrivals to this date—salted hides 499, and 2090 horse hides, 1567 pipes tallow. Market for River Plate hides flat. Many importers have cleared off some of their stock at a reduction of ¼th per lb. Little done in salted horse; offered by auction at 15; holders firm. 8,400 Buenos Ayres salted of 34lbs., sold at 10s 6d to 11s.; Uruguay, 34lbs. at 11s.; Montevideo, 32lbs., at 9s 10d. Stock, 63,550.

The Argentine Maritime Insurance Company has published its annual report, showing another prosperous year's business. There are few joint stock companies in the Plate that can compete with this company in result, as will be seen by the following report. The losses during the past year are as follows:—

Steamer Brazileiro,	$f.11,331 60
Barque Amelia, lost on coast of Brazil,	4,000 00
Steamer Marco 1, lost in Parana..	12,524 75
Salvage Brig Febo, Buenos Ayres to Bella Vista	488 60
Steamer 16 April, damage, etc.	1,536 67
Steamer Sadowa, damage, etc.	1,642 28
Average on goods Nuevo Corzo, voyage from Montevideo to Parana,	368 07
Average on goods per Mariano Arijos	560 25
Average on goods per Edward Everett	57 37
Average on goods per Estrella, from Santa Fe to Buenos Ayres	36 00
Steamer Venetia, damages,	2,785 76
Lots of beef, cargo per Johana, at the Cerro Montevideo, en route from Rosario to Pernambuco,	7,826 19
Total	$f.43,167 81
Less	
Policy on Brazileiro in Compania General Espanola	$f.: 2,083 90
olicy on steamer Sadowa, in La Estrella,	320 00
Policy on steamer Venezia, in La Estrella,	900 00
Policy on steamer Johana, in La Estrella, beef	2,542 25
Total	5,846 15
Nett Total loss	37,311 36

The nett gains for the year amount to 28,713 69 dols., which has been distributed as follows:—

Dividend of eleven patacons per share, amongst 1,024 shareholders	11,264 00
For Reserve Fund,	17,449 69

It was also determined to place the 20,000 dols. which stood to the credit of the extraordinary reserve fund in the general reserve fund, and thus the reserve fund decreed on the 15th May, 1866 of 100, 00 pats. will be more than covered, making the reserve fund $f.100,287 38cts.

The Argentine Marine Insurance Company, founded in May 1859, with a paid up capital of only 25,000 pats. has in its first ten years of existence distributed amongst the shareholders in nine ordinary and one extraordinary dividend, the large sum of 116,224 pats., besides putting aside a reserve fund of over 100,000 pats. to cover future losses which may occur; and all this it has done after having paid away for losses 238,152.05 pats., never having refused to pay any just or fair claim upon it, and only having disputed one or two which owing to the circumstances it was impossible to recognise without establishing a dangerous precedent or causing a direct injury both to the public and to the company.

The affairs of this highly prosperous Company betray a safe, excellent and economic management which speaks highly not only for the directors but the manager, Mr. F. F. Moreno, whose reputation as a managing director of joint stock companies stands first in this city. The résumen of the business of the Company attached to the report gives a very great insight into the affairs of the Company. We find that the total insured capital for the last year is 900,000 pats. less than that of the previous year, being—

For 1867-68	$fts. 10,958,696.93cts.
" 1868-69	10,013,963.67 "

The premiums received show a proportionate falling off—

For 1867-68	$fts. 115,565.25
" 1868-69	102,671.69

The interest account of course shows an augmant—

For 1867-1868	$fts. 4,656.78cts.
" 1868-1869	5,161.69 "

The greatest disproportion however we find in the re-insurances, which shows how careful and prudent the management has been—

For 1867-68	$6fts. 1,533.39cts.
" 1868-69	24,871.75 "

The loss account is rather startling—

For 1867-8	$f.68,067,29.
" 1868-9	37,311,36.

The office expenses show a slight increase—

For 1867-8	$f.4,34[illegible]46.
" 1868-9	6,004,20.

The expenses at the agencies for the past year were nil. The profit account shows extraordinary figures, and it will be observed was heavier on the previous year, when the losses were nearly double—

For 1867-8	$f.33,765.40cts.
" 1868-9	28,713.69 "

The reserve fund keeps 'pari-passu'—

For 1867-8	$f.17,381,40.
" 1868-9	17,449,69.

The dividend in the previous year was 15 per cent., and this year was only 11.

Dividend 1867-8	$f.15,360.
" 1868-9	11,264

Thus we have this company only 10 years in existence, whose total paid up capital amounts to $f.25,600.

Paying in dividends	$f.116,224,
" " losses	238,152.05
" to reserve fund	100,287,38
Total	$f.454,663,43

Nearly half a million of patacones, on an original capital of about one-twentieth that amount. These figures speak facts. The shares of this Company are not to be had in the market at any price, being held by the shareholders as the best paying investment in the River Plate.

The owner of the sheep slaughtered at La Morvannais' establishment has shown us a letter from Mr J. M. Bell, the party who sent them to the saladero. He writes that, although they were not fat, he considered them in the same state as the other flocks on the estancia Bella Vista;—they left there in the morning, and arrived at the saladero in the evening. No deaths were reported as having taken place on the way. It appears that the owner of the sheep has applied twice to La Morvannais for the particulars of matanza, and it is only from the party who purchased the grease that he knows the sheep only gave six or seven bordaleses—not a pound each animal. This, in the opinion of practical men being impossible, the owner, in protection of his interest, has had no alternative but to protest.

SOUTH PLAZA.

Our special reporter gives the following weekly review.

Wool.

Down.

Very few sales from deposits.

Few arrivals of extra wool, especially some fine mestiza, sold at 36, 38, 40, 44, and 47.

BISHOP'S GRANULAR EFFERVESCENT CITRATE OF MAGNESIA,
Introduced and prepared by
ALFRED BISHOP,
Manufacturing Chemist,
47 & 48 SPECK'S FIELDS, MILE END NEW TOWN, LONDON.

This perfectly white and delicately clean granulated preparation possesses remarkable effervescent qualities, and far surpasses the ordinary Seidlitz Powder in its cooling, refreshing, and mild aperient properties, as well as in its flavor as a saline draught. It is particularly well adapted for women and young children, on account of its most agreeable flavor and mild effect.

N.B. The genuine has the name of BISHOP upon the Bottle, also the Name and Trade Mark upon the Label, and is sold in convenient sizes, and secured in so perfect a manner that it may be shipped with safety to any part of the world.

Manufacturer also of Granulated and Effervescent Carbonate of Iron, Citrate of Iron Citrate of Quinine, Citrate of Quinine and Iron Carbonate of Lithia in Tubes, Citrate of Lithia, Vichy Salt, Seidlitz Mixture, and all other Granulated Preparations.

IN CHANCERY.—CAUTION.—BISHOP'S GRANULAR EFFERVESCENT CITATE OF MAGNESIA.—Mr. Bishop, having discovered that the Label which he has used for the last five years was being imitated, recently applied to the Court of Chancery for an injunction to restrain such imitation. The Injunction was immediately granted, and the Defendant was ordered to pay all Mr. Bishop's Costs and destroy the Labels complained of.

Also, BISHOP'S NEW REMEDY for SEA-SICKNESS, should be in the hands of every person travelling by Sea. 77.26pft.11868

Shoemakers			
Tailors, &c.			
Manufactories, Banks		By agreement.	
Exchange, Stations, Markets			
Clubs, Special Establishments			
Schools, Printing-offices			
Custom-house Stores, Steam Engines, &c.			

Fire Services for Banks, Stores, and Private Houses, $20 for each cock.

Gardens, for an area of less than 500 square varas, $10.

Do. from 500 to 1000 varas, $20
Do. " 1000 varas upwards, $15 per 1000 varas.
Do " 10,000 " 12 do
Water for Brickwork in building:
One payment of $2 per square vara of floor.

SCALE OF CHARGES FOR SERVICE PIPING.

In order to avoid questions as to the cost of pipes in houses, the Commission has decided on the following scale of prices, based on the lowest possible charges:—

1. In case the Commission supplies the Materials, Piping, Cocks, &c.:—

Lead Pipes..	½	inch	$30	per vara
Do ..	¾	"	33	do
Do ..	1	"	40	do
Do ..	1½	"	46	do
Do ..	2	"	64	do
Stop Cocks ..	½	"	20	each
	¾	"	30	"
	1	"	55	"
	1½	"	150	"
	2	"	230	"
Bib Cocks..	½	"	30	"
	¾	"	40	"
	1	"	50	"
Brass ferrules	½	"	10	"
	¾	"	12	"
	1	"	20	"
	1½	"	50	"
	2	"	60	"

Measured from the Street Main

Special articles, such as Fountains, Fire Services, Water Closets, Baths, &c., according to class selected.

2. For laying service piping, the materials not being supplied by the Commission, but approved of by their agents according to their regulations.

The price will vary according to the circumstances of each case. The average may be taken at $20 per vara of piping.

N.B. The Estimates sent in previous to the adoption of these prices, will be attend in conformity with them.

EXTENSION OF THE PIPING.

The Commission, desirous to extend to the whole City the advantages of the Water Supply, has determined on reducing the cost of laying pipes in the streets not yet provided with them, to eight thousand dollars currency per square, which is the nett cost of laying the main pipes, without branches.

In exchange for the advance of that sum, the Commission will declare 'values,' which will be available for paying for the water in any part of the city.

In this way, by an advance of a sum equivalent to three hundred dollars currency, for a house of ten varas frontage, the inhabitants will obtain—

1. The advantage of a supply in their houses (they paying the cost of the service pipe), at a very cheap rate, namely, three per cent. on the rent of the house.

2. Security against fires, which will be insured by placing at every half-square a fire-cock, which will command an unlimited supply of water.

3. The means of watering the streets.

Every information required on the subject of the Water Supply, will be given at the Office of the Commission, 106 Bolivar.

NOTE.

The Rent of Houses, inhabited by owners, or let at rates disproportionate to their size or value, will be estimated by an Agent of the Commission, for the purpose of fixing the monthly charge, the owner having the right of appealing to the Commission if the valuation appears unjust. 174xp,my22

SURGEON DENTIST.

CHARLES E. KRAUSE, inventor of various improvements in the art of Dentistry, has received of late many testimonials of the highest order from scientific men in Europe, all highly approving his method [entirely unknown in other parts of the world] of setting half as well as entire sets of teeth. Every operation performed with the greatest ease and perfection, and entirely free from pain.

A young Man as an Assistant, understanding vocanite and gold work, can find constant employment at the highest wages given. Cuyo 156.

SAVINGS BANK
BANK MAUA AND Co.
101--Cangallo--103
BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following the noble example of their Firm in Montevideo, now offer the same facilities in this city, and has opened a Savings Bank at No 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,
M. A. DE FREITAS AMORIM.

CONDITIONS

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p.%) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourt—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes can open an account current, according to the rules established by the Bank.

Fifth | In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
